## LEATHER CARE

---

- 1 Under normal usage conditions, regular dusting and vacuum cleaning in crevices or under cushions is all that is necessary to clean your furniture.
- 2 For minor spots and spills: Wipe any excess liquid up immediately with a clean absorbent cloth or sponge. If necessary, use a lightly moistened soft cloth with distilled water and let air dry naturally. Do not dry with hair dryers.
- 3 For stubborn stains: Moisten a soft cloth or sponge with distilled water. Apply gently to all soiled portions of the leather surface. Remove water by wiping with a clean, damp cloth. Blot dry with another clean, soft cloth then let air dry naturally. If the stain persists, it is recommended that the leather be cleaned by a professional leather specialist to avoid any potential damage.
- 4 For butter, oil or grease: Blot excess butter, oil or grease off the leather with a clean, dry cloth. Do not scrub or rub the area – blot only. The spot should dissipate into the leather after a short period of time. Do not apply water or try to wash a butter, oil or grease spot.

*DO NOT USE: Saddle soap, cleaning solvents, furniture polish, oils, varnish, abrasive cleaners, detergent soaps, or ammonia water.*

*Always try any cleaning method in a hidden area first to test the results. The manufacturer is not responsible for damage incurred while cleaning. Like any upholstery material, all leathers can fade to some degree if exposed to the sun or direct light.*

## FABRIC CARE

---

- S** Spot clean only with a water-free, dry cleaning solvent. Pretest on a small, inconspicuous area before proceeding. Do not saturate. **DO NOT USE WATER.** Pile fabrics may require brushing with a non-metallic, stiff bristle brush to restore appearance. Cushion covers should not be removed and dry cleaned. To prevent overall soiling, frequent vacuuming or light brushing with a non-metallic, stiff bristle brush to remove dust and grime is recommended. When cleaning a spill, blot immediately to remove spilled material. Clean spots or stains from the outside to the middle of the affected area to prevent circling. Use a professional upholstery cleaning service for general cleaning.
- SW** Spot clean with upholstery shampoo, foam from a mild detergent, or mild dry cleaning solvent. Pretest on a small, inconspicuous area before proceeding. Do not saturate. Pile fabrics may require brushing with a non-metallic, stiff bristle brush to restore appearance. Hot water extraction or steam cleaning is not a recommended cleaning method. Cushion casings should not be removed and laundered or dry cleaned. To prevent overall soiling, frequent vacuuming or light brushing with a non-metallic, stiff bristle brush to remove dust and grime is recommended. When cleaning a spill, blot immediately to remove spilled material. Clean spots or stains from the outside to the middle of the affected area to prevent circling. Use a professional upholstery cleaning service for general cleaning.
- W** Spot clean only with water-based shampoo or foam upholstery cleaner. Pretest for color loss and fabric compatibility. Do not overwet. Use a professional upholstery cleaning service for general cleaning.
